Milestones achieved in previous week:

Course Detail Pages Developed: Team worked on developing detailed pages for each course within the program. These pages now include course content, objectives, and additional information, with HTML and CSS completed.

User Authentication Styling: Sanjay Kumar focused on styling the user authentication pages to ensure a cohesive and user-friendly design. Login and registration pages now have consistent styling.

Responsive Design Implemented: The team ensured that the HTML and CSS code is responsive and compatible with various devices and screen sizes. Testing was conducted to confirm responsiveness.

Accessibility Considerations: The HTML and CSS code was reviewed to ensure compliance with web accessibility guidelines, making the website accessible to users with disabilities.

Documentation Initiated: The team started documenting the HTML and CSS code, providing comments and explanations in the codebase to facilitate future development and maintenance.

The following action items were designated:

Commence work on the homepage HTML/CSS.	: Aryan Rahul Verma
Draft the project schedule.	: Sanjay Kumar Vontela
Initiate the design of the database ER Diagram and Schema Diagram	: Vishal Reddy Vancha
Explore hosting and deployment options.	: Abhishek Reddy Yaramala
Conduct research and select a web framework.	: Aravind Yalla

Backlogs:

- 1) The content for the homepage, including text and images, has not been finalized.
- 2) Users are encountering errors during the authentication process, preventing them from accessing their accounts.
- 3) Instructors find it confusing to create exams and associate them with specific courses and program objectives.
- 4) The user feedback form is not functioning correctly, and user feedback is not being collected.

Plan to address Backlogs:

- For Backlog 1, Aryan Rahul will collaborate with the content team to gather and finalize the content by September 19, 2023, ensuring it aligns with the project's objectives and messaging.
- For Backlog 2, Abhishek Reddy will investigate and fix the authentication errors within the next three days. He will conduct thorough testing to verify that users can log in and access their accounts without issues.
- For Backlog 3, Sanjay Kumar will redesign the exam creation interface to make it more intuitive and user-friendly. He will also provide clear instructions and tooltips for instructors. This redesign will be completed within two weeks.
- For Backlog 4, Aravind and Abhishek Reddy will work together to identify and resolve issues with the feedback form's functionality. They will aim to fix the form within the next five days and conduct testing to ensure that feedback submissions are successfully recorded.

Are all members equally contributing:

Yes, all team members are actively participating and contributing to tasks.

Comments by Note-Taker:

- The team discussed the importance of data quality and its impact on the project's success.
